

Warmth Matters

Stay warm. Stay healthy. Save money.

Warmth Matters
Tackling fuel poverty in Surrey

Do you know anyone:

Who may be struggling to understand their gas and electric bills?

Who will be worried about turning on their heating this winter because they just can't afford it?

Whose children have health problems or trouble concentrating at school because they live in a cold home?

Who live in draughty or hard to heat homes?

We can run a free information session for the people you support to give them practical advice and independent guidance to help them stay warm, stay healthy and save money.

For more information, please contact:

David Carter at Surrey Community Action on 07521 503696
