

Fuel Voucher Scheme - Pilot Project

Do you know someone that can't afford to top-up their pre-payment meter?

Surrey Community Action is launching a new scheme designed to help solve a very widespread issue - that many people are facing the choice of heating or eating.

The Scheme will help people who are struggling to pay for their energy with information on ways to save energy, as well as emergency fuel vouchers to help top-up their pre-payment meters in times of financial hardship.

If you would like to support this scheme then please get in touch.

Many people across Surrey are finding it hard to pay for their energy

So, the scheme will help those who need it the most. Many will be without gas or electricity when they receive a voucher.

Providing people with fuel vouchers means families will have to cut back less often on essential items and will stay healthier.

Through our **Warmth Matters Project** we have heard how people are more likely to turn their heating on or take a bath or shower if they were to receive a fuel voucher- things most people take for granted.

Keeping warm can help both physical and mental wellbeing.

We will be providing specific information with each fuel voucher, so people can receive valuable advice about staying warm, staying healthy and saving money.
